Not 1st time in this local.

Hydro Biogeo. Danger.

Denis Lee. check.

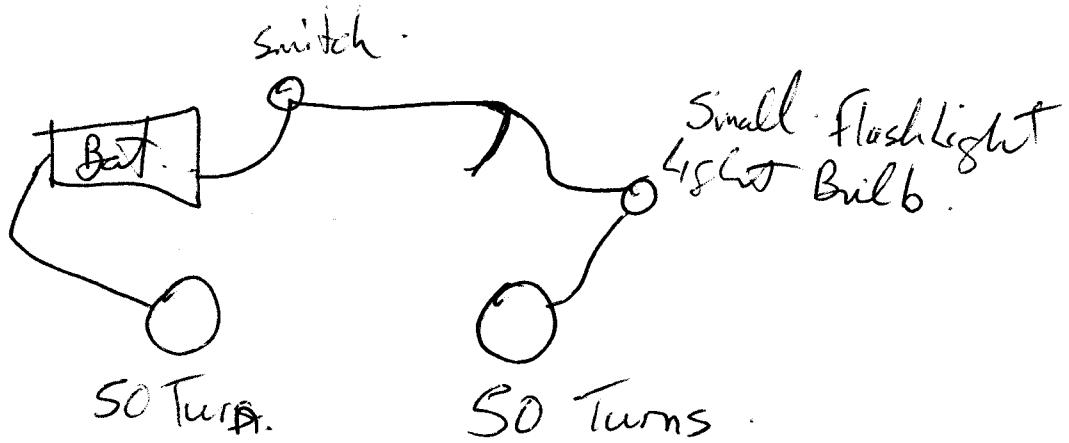

23.V  
8.A

Man has created science.  
But has forgotten his conscience.

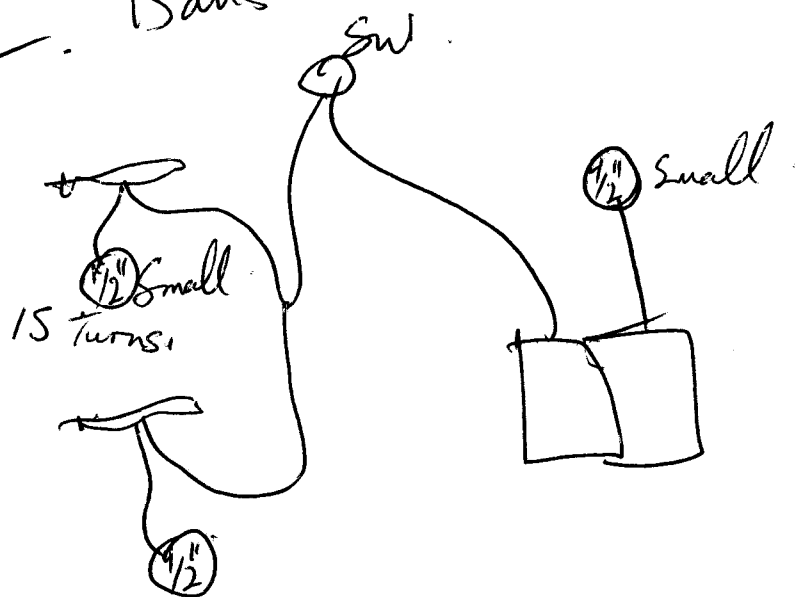

These are the quick notes I made  
while at the DP event on April 1st, 2007.

PS: search "April 1st 2007" at <sup>wattsup</sup>overunity.com

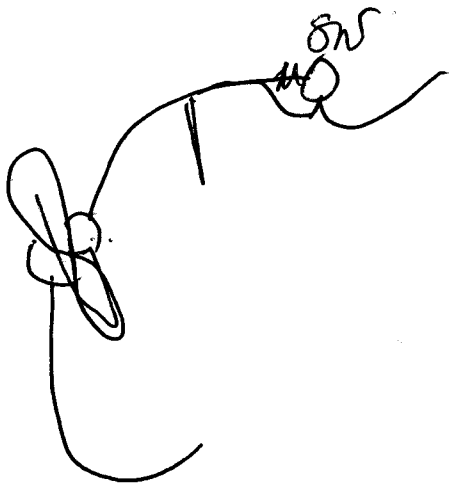

Modul # 1. 1 Jan.

Module # 2. 15 ans

# Module # 3.1

6 volt DC Bulb on Fan.

Drill 140VAC. Turned 1/2 Turn.

Small Compressor pumped a little.

DC Motor. Turned (dual shaft).

8.6 volts.

2.5 amps.

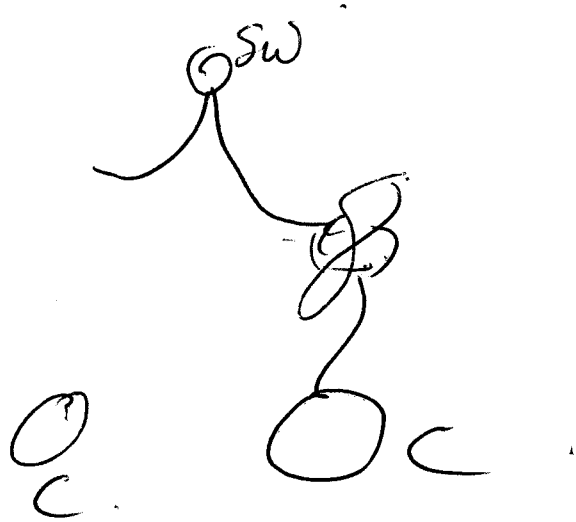

Test with my DC ammeter. 2.3 Amps.

Tested within  
amps.

Madul 44.

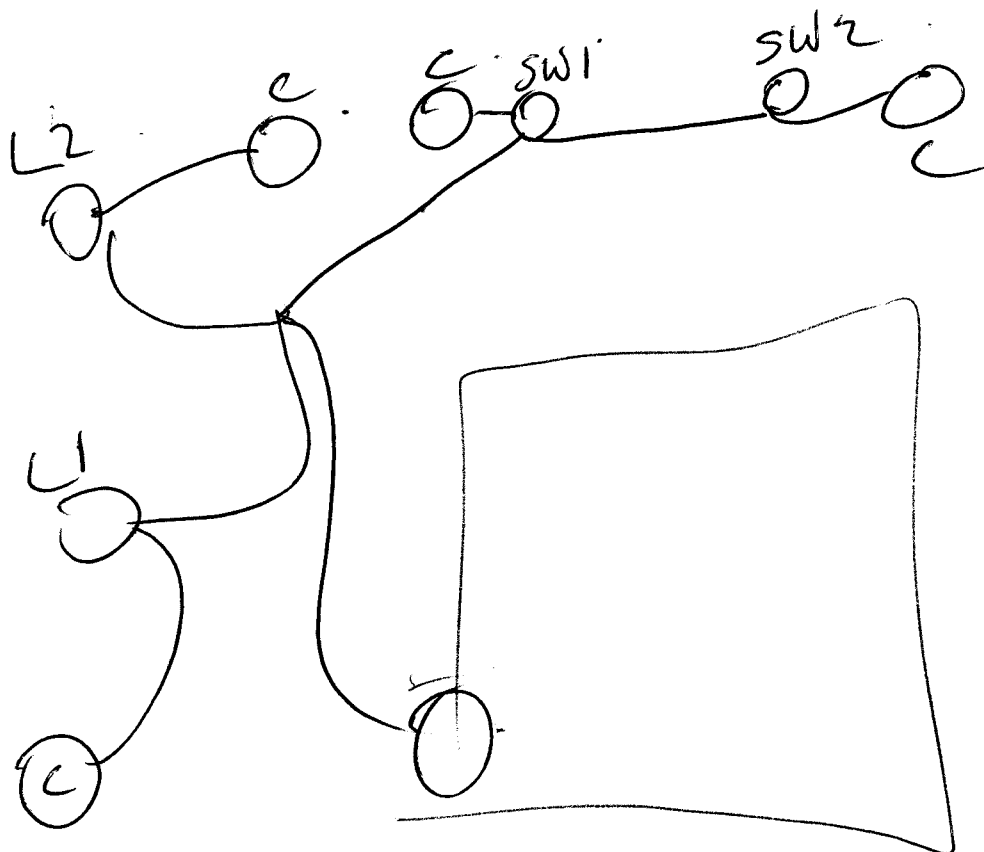

Remove Jumper Runns Factor.

Mic das Tbla.  
Steve Markes.

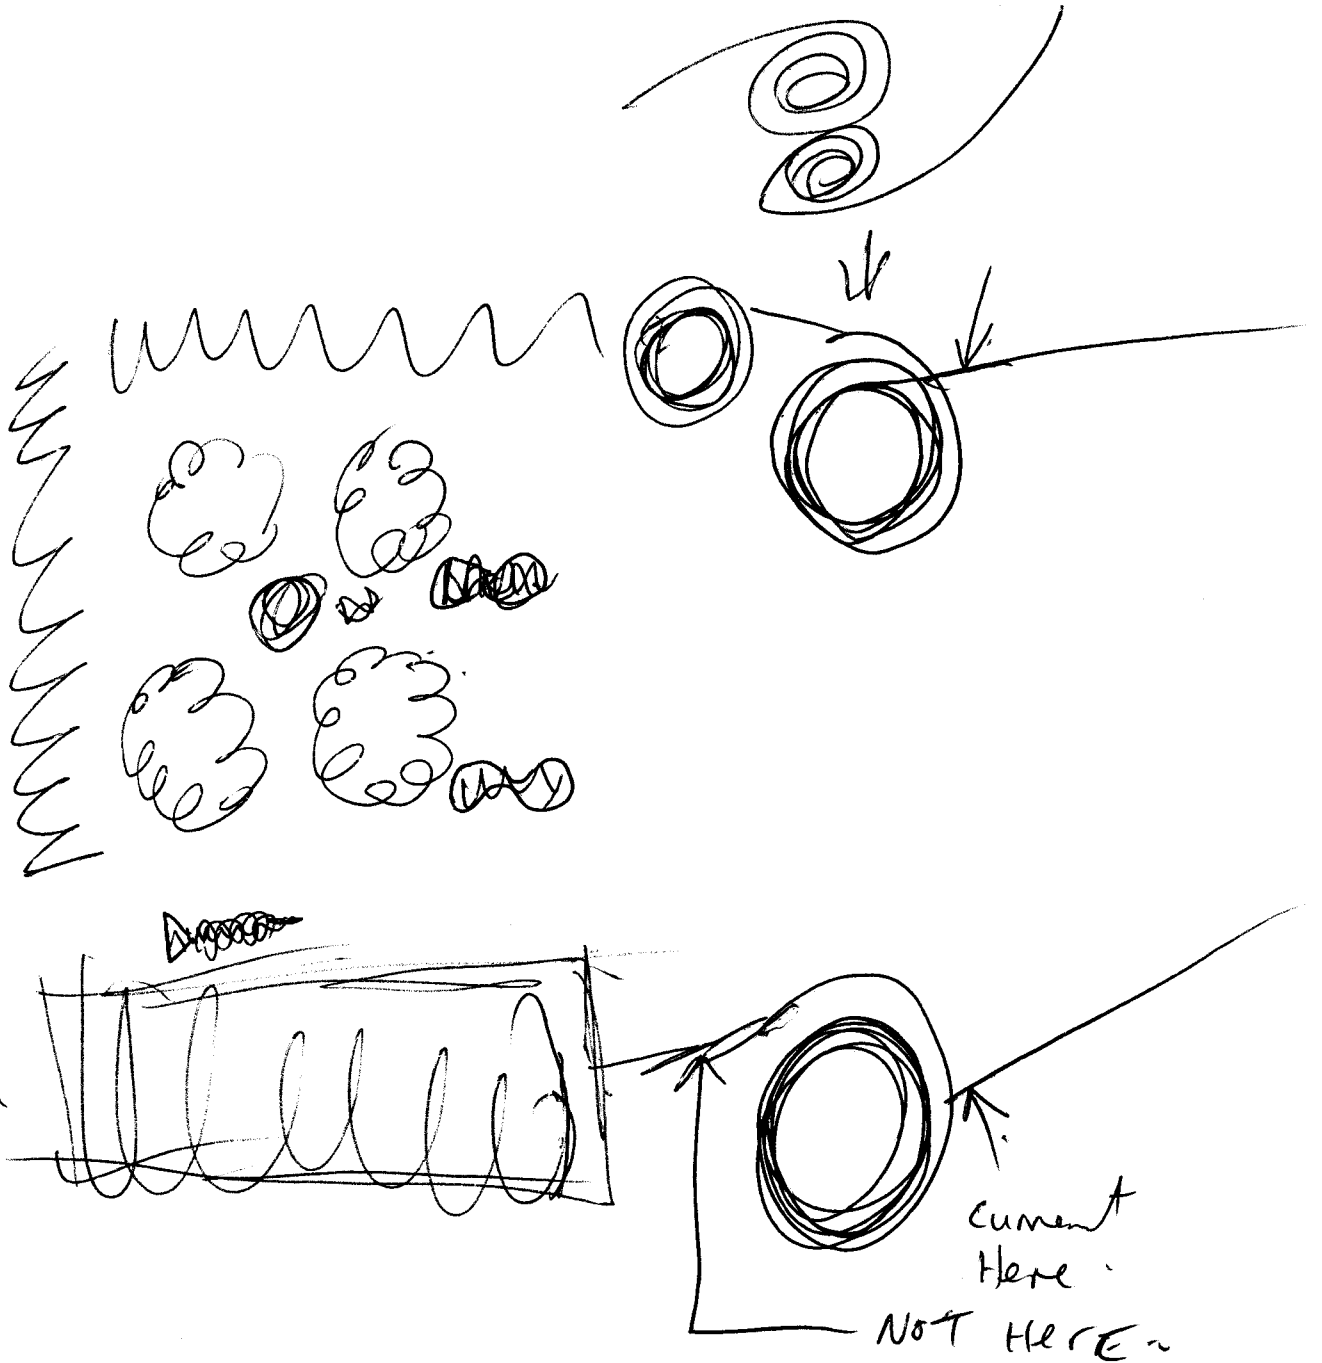

Module # 5

checked on coils

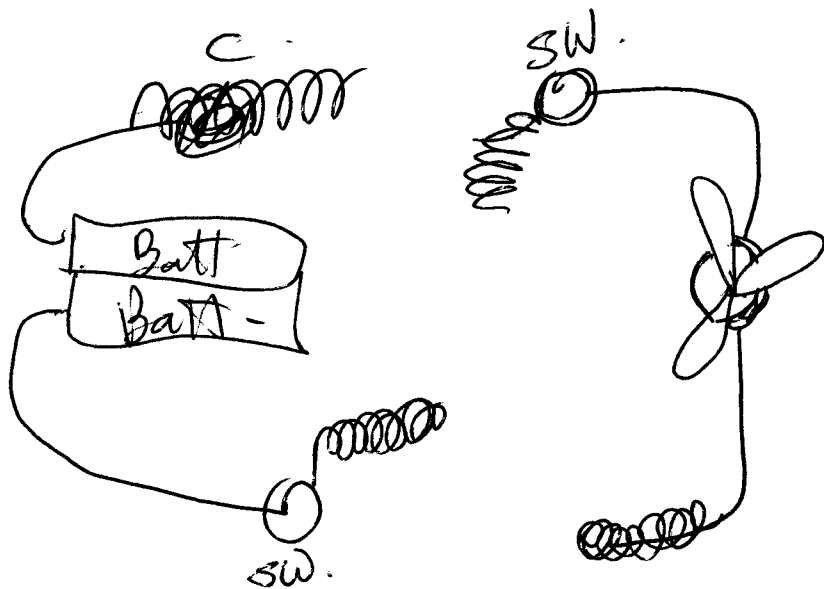

# Module # 6

7.7 J.  
4.2 A.

Modul #7.

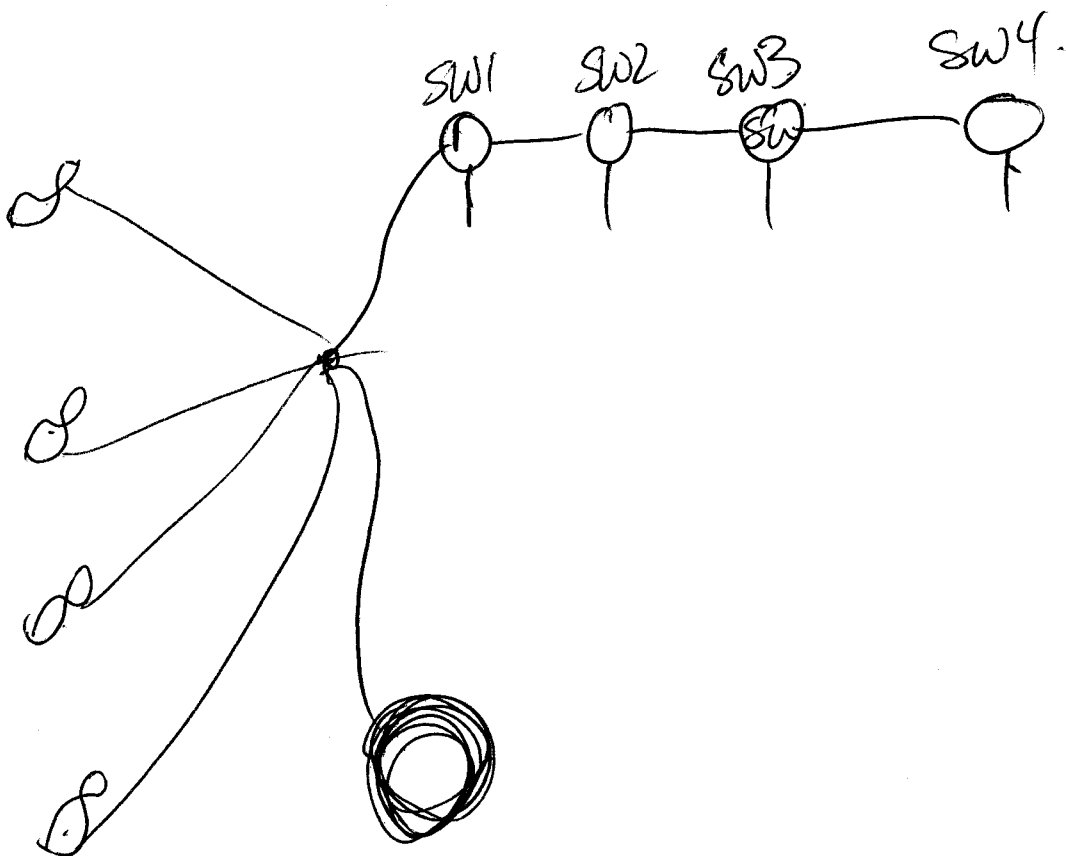

Started with his mind.

I held the unit, while he turned it on  
the switch did not move.

Removed Batteries and unit still worked.

Passed the on/off switch.

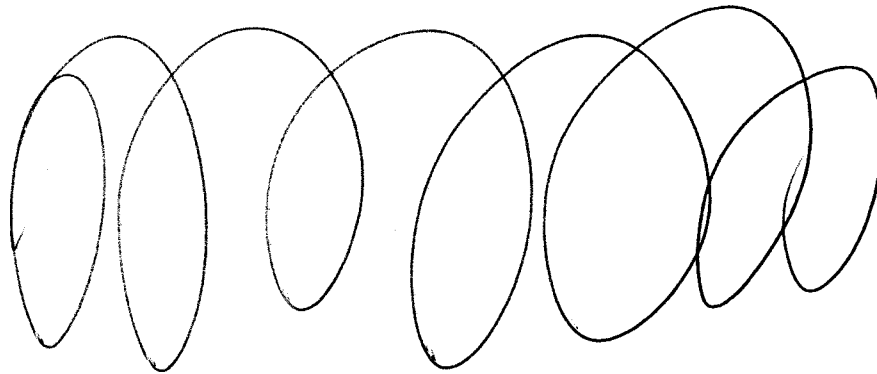

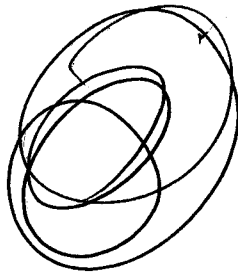

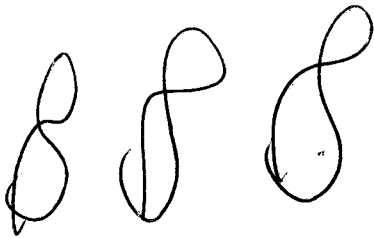

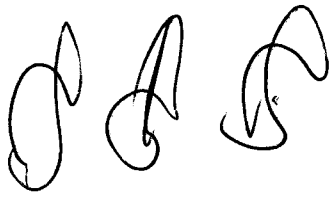

Module # 8
